FOR BRANDS & CREATORS

Your Reels get views. So why no clients?

4 quiet mistakes that turn viewers into scrollers, not buyers.

01

People can't tell what you sell

If your bio and your first 3 seconds don't say **who you help and how**, viewers enjoy the video and move on.

02

Your hooks pull the wrong crowd

Trending hooks bring scrollers. Hooks that name **your client's real problem** bring buyers.

03

Every post ends with no next step

Give one clear ask per post. A DM keyword beats "link in bio" because it **starts a conversation**.

04

You post, then disappear

The sale happens in the replies. Answer every comment and DM within the first hour.
